CERTIFICATE

The K H Kabbur Institute of Engineering has approved "sewage disposal system" connected to sewers and storm water drainage lines under the jurisdiction and control of the Institutional Coordinator and Campus engineer, by whom it is effectively and periodically monitored and maintained.

WASTE MANAGEMENT AND ENVIRONMENTAL IMPROVEMENT MEASURES

To reduce waste at institute and keep the environment green and clean the following measures have been taken

1. Educating the students and staff through lecturers, conducting workshop, seminars etc.
2. Through Industry interaction and also with pollution control board.
3. Advertise on notice boards.
4. Displaying the Slogan boards in the campus at the prominent places
5. Waste is collected on a daily basis from various sources and is separated as dry and wet waste color coded dustbins are used for different types of wastes Green for wet

and Blue for solid waste. Daily garbage are collected by gardeners'/ campus cleaners, and same is handed over to authorized corporation garbage carriers{vans) for further needful processing.

6. Waste material like plastic, paper etc are collected and sold out to scrap vendor from time to time. Efforts have taken to produce compost manure from the canteen solid waste and waste from other sources and efficiently run by the appointed employees.
7. Manure is used for the purpose of herbal garden as well as for planted trees
8. The sewage from toilets and waste chemicals from laboratory is (conveyed through concealed pipe line and intern is diverted through inspection chamber to main sewer lines. Campus sewer lines are internally connected with main sewer line, which is laid adjacent to the main approach road.
9. E-Waste is Collected and stored in store room and disposed every year as per the norms of the management as well as pollution control board Govt. of Karnataka. The buy Back System is followed for ups batteries beyond repairable conditions. Empty toners, cartridges and outdated Computer and electronic items are sold as scrap to ensure their safe recycling.

Our institute's motto is based on 3R's i.e. 1. Reduce, 2. Reuse. and 3. Recycle
