Computer Assisted Language Lab

A language lab is an audio-visual installation used in modern teaching methods to learn foreign languages. The language laboratory plays an important role in the language learning process. As it is a technological aid for learning, it has many advanced facilities that can help a student to learn a language with proficiency to communicate. The institute has Computer Assisted Language Laboratory (CALL).

CALL uses the computers to teach language. The language course materials are already fed into the computer and are displayed as per the features available in the system. Along with lingua phone, the basic category; open source software and online software are used to tech communication digitally.

The Language Laboratory of K H Kabbur Institute of Engineering was set up during the academic year 2018-19.
